## Bert's Pizzeria, Hull

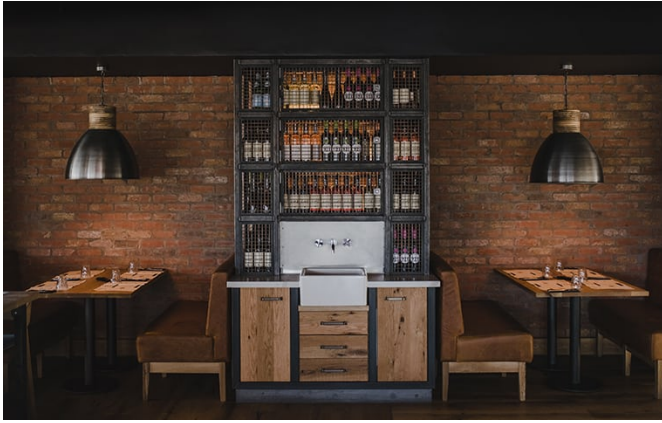

It's always a pleasure to welcome a client back to Dawnvale. This was our second turnkey fit out for the Bert's brand, owned and managed by the Mewbury family. This time, we were working on a new branch, up in Hull.

Name: Bert's Pizzeria, Hull

Location: Hull

Scope: Bar + Restaurant Fit Out

The brief was clear: a relaxed and family-friendly restaurant with a simple menu, focusing on pizzas and gelato. We were brought in to bring the proposed design to life, managing the build and installation from start to finish.

**FULL RESTAURANT FIT OUT**

We took the project at Bert's from bare walls to stunning completion. The restaurant features a number of distinct areas, including commercial kitchen, bespoke bar, gelato counter and a variety of seating zones.

**COMMERCIAL KITCHEN**

The ergonomic open-pass commercial kitchen is designed with maximum productivity in mind. We consider the menu when designing a kitchen, envisioning the needs and movements of the chefs in every area.

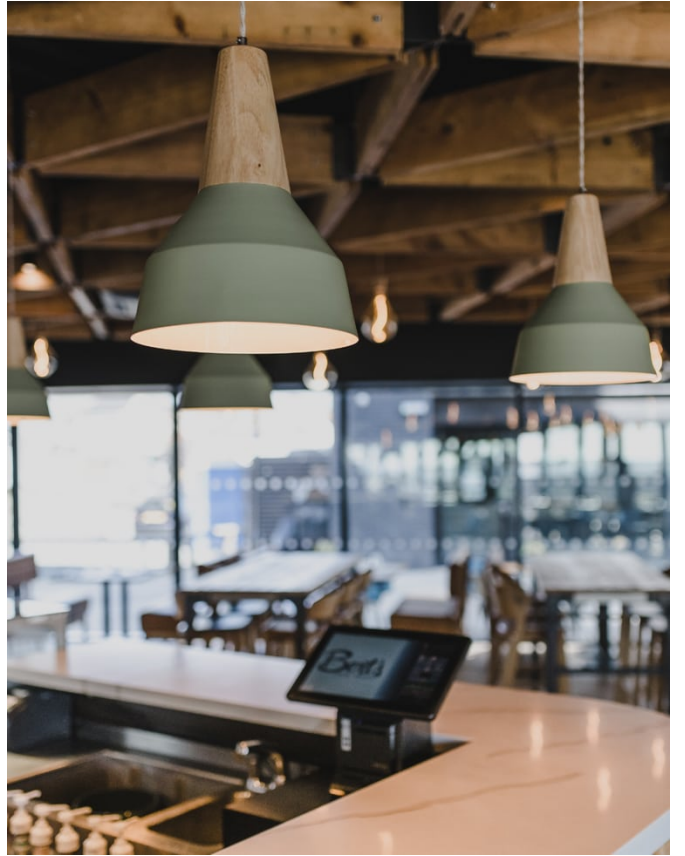

**ENERGY SAVING TECHNOLOGY**

The commercial kitchen is fitted with the latest technology, including a KERS heat recovery system, which uses waste energy from the ovens to heat water. Good for the environment, and the bottom line.

**IMPORTED PIZZA OVEN**

Authenticity is an important part of the Bert's brand. We imported a specialist wood-burning pizza oven direct from Italy, installing it in prominent view so customers can enjoy the whole experience.

### BESPOKE CEILING RAFT

We manufactured and installed a bespoke ceiling raft from reclaimed scaffold planks and mild steel brackets. The full items was constructed and stained on site, covering 90% of the restaurant on completion.

### SPECIALIST GELATO COUNTER

We imported a specialist gelato unit and fitted it beautifully into the front bar, giving customers the pleasure of seeing the desserts on offer and allowing staff to serve directly over the counter.

### NEW INDUSTRIAL DESIGN

We used a mix of muted colours and visually impactful textures to achieve a new industrial feel to Bert's in Hull. Reclaimed timber, metal shelving and exposed brickwork combine for eclectic results.

### RESTAURANT FURNITURE

A blend of Italian leather covered booth seating and wooden dining tables and chairs add warmth and comfort to the restaurant, while pops of stylish teal bring the whole scheme together.
