Piccolino, Mayfair

Piccolino's Heddon Street is a prominent establishment in London's dining scene. It features two floors, outdoor dining, a theatre-style kitchen, and a cicchetti bar, creating an authentic Italian experience in the heart of the city.

Name: Piccolino, Mayfair

Location: London

Scope: Bar + Restaurant Fit Out

Being under the ownership of The Individual Restaurant Group, with whom we have a history of collaboration, they were well-acquainted with our ability to consistently deliver high-quality projects within tight deadlines.

MINIMAL CLOSURE

Given that this was a comprehensive renovation of an existing site, the longer it remained closed, the greater the financial risk. However, our efficient 'fast track fit out' approach enabled us to complete the project within a mere 6 weeks.

BESPOKE BAR

This high-end bespoke bar with bevelled mirrors, backlit pockets, and polished brass accents enhances the prestige of the restaurant. It includes a main bar with a quartz countertop and premium timber selections.

THEATRE KITCHEN

Renowned for its upscale dining experience, we installed a complete theatre kitchen in clear view of the main dining area. This not only put culinary artistry on full display but also enhanced the overall dining atmosphere.

ALFRESCO DINING

Nestled between Mayfair and Soho, Heddon Street, car-free and adorned with unique and distinctive bars, has been further enriched by our restaurant refurbishment, enhancing the alfresco dining experience in the heart of the city.
